Leganda is an island simulation game set in the arctic archipelago of the same name. Manage your energy company's client, set a path for the company's expansion in Leganda and establish its headquarters. This is the game where you build the islands, not the islands that build you! -----

Features Key:

GAMEPLAY: It is the FIRST 3D car racing game on GearBox!
Highly addictive and unique racing environment
The only full game in the series.
Huge arcade physics on-the-road racing
On-track challenges include fuel conservation and driver training
Race on one of four tracks with different terrains and weather
Drive five different classes of powerful cars
Racing with so many other users anywhere in the world
Because this is a racing game, you have to fight for first place
Three different game modes: *Random Race*, *Dodgeball* and *Normal Challenge*.
GRAPHICS: 3D cars beautifully rendered in PS3 game engine!
Full HD graphics, 60fps gameplay, improved AI and slowdown fix.
OPTIMIZED FOR PS3
WIN: Win the CarX Drift Racing Online - Deluxe Game Key title to get in-game unlockable cars!

SARAJEVO, Bosnia — When a small, flimsy engine was hoisted into the room in mid-July of last year, it was a miracle. The government of Bosnia was wrestling with the challenges of a state built on the ruins of war. Decades of silence had made faith in the future impossible. But as a short-term fix, it was the best option. As the government searched for help, a mother nudged her son into action. “I felt we needed something special and I wanted to make sure we got one,” Nermina Mulaj, a Bosnian mother, said of her son Yuta Saško Inob, 13. Mr. Inob is the heart of Mother’s Day Dreams, a non-profit organization founded

It’s time to set sail! Your ship is your brain, the sailing route is your pathways, and the island is your canvas. It’s your job to decorate the island with hexagonal grid draw patterns according to the current needs of your brain. You have an awesome pirate crew, but they’re not the kind to follow your orders without a fight. They’re determined to take the treasure of the boss island and sail around the world. You and your crew will have to fight the army of the boss island and defend your treasure. Each island will have three different brain pattern puzzles: Explore and defeat all of them to get to the hidden treasure. ABOUT THE GAME: This is a casual game, based on the griddlers puzzle game genre. To play this game, you only need to tap the screen to drop the red ball, it won't be very difficult at all. What's new: - New editor: Now you can have fun designing your own patterns! - New game design to the full satisfaction of all the players! - New music in the game - Improved game controls - New way to access the levels, making it more flexible for all users - Other small improvements If you like this game, be sure to give us some feedback! SUPPORT: Want to see future improvements of the game? We would love to have your support. The electronic equipment of the invention is preferably applicable to a portable device which is operated by a battery such as a notebook computer, a personal digital assistant or the like. Conventionally, such a portable device is provided with a battery compartment into which the battery is inserted. The battery compartment is opened and closed by a lid member which is provided with an operating member which can be manipulated by the user to open and close the lid member. The lid member is provided with a guide groove which is engaged with a guide projection of the portable device so that the lid member can be guided and moved in the battery compartment while keeping a predetermined gap to the portable device. The charging and discharging operation of a battery is carried out in the state where the lid member is opened. However, since the lid member is generally made of plastic, it is often deformed in the process of closing so as to make it difficult to provide the gap between the lid member and the portable device. This can cause a problem that the user's hand or fingers hit against the deformed lid member during the closing operation and are injured, while the remaining portion of the lid member is not in contact with the portable device. JP-A-11-282238 discloses a positioning member which is provided on a battery compartment of

You are the electric car boss. In Electric Car Tycoon, you get to start the electric car revolution with your own car company. Start with an experimental model in your garage and grow your company to hundreds of factories and workers around the world. Research new technologies and improve your models. Create the best electric car. A journey to electric car dominance From garage to mega factory Start with a simple, experimental electric car in your garage in the early 2000s. Sell it to enthusiasts around the world. Unlock new technologies, build a factory and mass-produce the car model you created. Create your car model In Electric Car Tycoon, the decisions you make matter a lot. Is your car powerful or luxurious? Is it for the city crowds or the rural audience? Is it fast or cheap? These decisions will have a big impact on the success of your electric car. Grow your company Once you have released the first successful electric cars, you can move to a bigger factory. No more assembling by hand, you now have robots to make thousands of cars per month. Hire managers, industrial designers, and A.I. experts. Change the world by making everyone drive electric With experience, the right team, and a lot of factories, you can mass-produce millions of cars and change the world, forever. But pay attention: Large-scale car productions are challenging, and make a bad model flop even harder.
